## Claudette Smith Entertains

Miss Claudette Smith entertained at open house on Monday evening at her home. The exterior of the Smith home was festive with half-day decorations. The front door was wrapped with red ribbon to represent a package and crossed with a candy stick cane. Greenery interspersed with colored lights framed the top of the door.

The interior was decorated in the pink and silver motif. A spot light shone on a pink tree decorated with silver balls. A snow ball candle encircled with greenery and silver balls adorned a coffee table.

The fifty five guests that called during the evening were greeted by Miss Smith.

Dainty refreshments were served from a table spread with a pink net cloth over pink taffeta. Cakes and candies flanked the center piece of pink camellias. Miss Rita Warren presided at the punch bowl. Others dispensing hospitality were Misses Carolyn Barham and Elizabeth Koslosky.

Wayne Johnson of Hope was an out of town guest.

## Mr. and Mrs. Chamlee Have Family Dinner

Mr. and Mrs. J. E. Chamlee entertained Friday with a family dinner.

Those enjoying the occasion were Mr. and Mrs. James E. Chamlee, Judy, Jerry, Danny and Mrs. J. B. Swanson of Abilene, Texas, Mr. and Mrs. Earl Chamlee, Mr. and Mrs. B. L. Chamlee, Vicki and Randy of Texarkana, Mrs. F. N. Rhodes, Mr. and Mrs. Virgil Daniel Jr., Eddie and Donna.

## Mrs. Don White Complimented

Mrs. Don White of Houston, a recent bride, was complimented with a miscellaneous shower on Friday afternoon in the home of Mrs. Johnnie Hooks with Mrs. Bill Bolton assisting hostess.

The living room mantel held an arrangement of nandina berries. A plastic Christmas tree decorated with bells centered the dining table laid with a lace cloth over green. Mrs. White was presented a corsage of pink and white carnations and her chair was marked with a white bow.

Games were played with prizes being won by Mrs. Douglas Easterling and Mrs. C. G. Johnson after which the honoree received her lovely gifts.

Cookies and coffee were served to the seventeen guests.

## College Students Kiwanis Guests

The weekly meeting of the Kiwanis Club was held on Friday evening at the Broadway Hotel. Tommy Dundee, student at Henderson State Teachers College, Margie Clarke, student at Harding College, Carl Dalrymple Jr. of the University of Arkansas and Freddie Moburg of Hendrix College were the guests of the club and spoke on their respective colleges.

Mrs. J. W. Grimes has returned from Tyler, Texas where she was the guest of her son, Bill Caruthers and family.

Mrs. J. J. Pedron, Julia Ann and David Allen of Midland, Texas, are the guests of her parents, Mr. and Mrs. Allen Gee.

Mrs. George Haynie of North Little Rock was the Saturday guest of Mr. and Mrs. Coy Dewoody.

Mr. and Mrs. Care Chappelle have returned from Columbus, O. where they were the guests of Mr. and Mrs. Carl Black and son.

Discharged: Charles Lively, Lively, Hope, Ark.; Mr. J. D. Davis, Rt. 1, Hope; Mr. Frank Wisinger, Hampton, Ark.; Mr. Troy Russell, Hope, Ark.; Mr. Elvin Crews, Hope, Ark.

Mr. and Mrs. Johnny Camp announce the arrival of a baby girl, January 1, 1958.

### Memorial Hospital

Admitted: Mrs. A. E. Hodges of Atlanta, Texas; Mrs. Wayne Ward of Hope, Ark.

Discharged: Candy Harris of Hope, Ark.; Oletha Sullivan of Fulton, Ark.

Minnesota is a combination of two Sioux Indian words meaning "sky-colored water."

## Says Research of Past to Show Soon

By ELTON C. FAY

WASHINGTON (AP)—Deputy Secretary of Defense Donald Quarles said today that the results of past weapons research will begin to show in the nation's defenses in 1958.

In a New Year's statement, Quarles said "1958 is a year of promise" and added:

"Many research projects and plans of previous years are becoming realities and will begin to contribute importantly to our national defense posture in the year ahead. In modernizing our streamlining our armed forces we are adding to our arsenal a number of important new weapons, such as the intermediate range ballistic missiles."

Pentagon officials have said they expect production of IRBMs to begin late this year.

Quarles said that Russia's Sputniks and ballistic weapons "pose a challenge that may be a blessing in disguise," adding:

"They have alerted the free world to the dangers we must face and have brought national defense back into first place in the minds of our countrymen."

He also said that "all American should look ahead to the coming year with determination and confidence."

In other year-end statements, Sen. Bridges (R-NH) and Sen. Mansfield (D-Mont.) agreed that 1958 will require important bipartisan decisions which Bridges said "must provide for the survival of this nation at all costs."

## L. R. Board to Study Dallas Developments

LITTLE ROCK (AP)—Attorneys for the Little Rock School Board have been instructed to make a study of last week's Dallas court ruling against immediate school integration so the board can see how it affects this city.

This was announced in a statement by the board yesterday.

However, the board gave no hint about what course of action will be followed after the attorneys complete the study it has ordered.

Last week the U.S. Fifth Circuit Court of Appeals at New Orleans ruled that Dallas public schools need not integrate at mid-term in February.

The Little Rock School Board said it wanted to determine whether the Dallas ruling "offers any prospects of temporary or permanent change" in the federal court order approving Little Rock's gradual integration plan.

Since the appellate court's ruling, the statement said, "there has been much speculation as to whether it has any bearing on the court ordered plan of integration under which the Little Rock School District is now operating."

The statement also said: "The Little Rock School District has, at all times, on a basis of law and order, felt an obligation to conform to the ruling of the United States District Court."

Mansfield, acting Senate Democratic leader, said members of both parties in Congress must place "the security of the country ahead of the welfare of their parties."

Bridges, chairman of the Senate GOP policy Committee, agreed in a separate statement that the debate over defense and foreign policies must not be a glorified snapbox for the promotion of political parties or candidates.

Mansfield said both Congress and the President must plan for the future "with courage, confidence and hope," and must "face the facts of life as they are, and not as we would wish them to be."

Their primary mission is to prevent war.

## DOROTHY DIX

Make Way For New Love — Old One Will Soon Fade

Dear Dorothy Dix: Two years ago I met a young man with whom I fell madly, deliciously in love. We broke up, however, after a foolish quarrel. He married another girl, and I was left heartbroken. Then I met another fellow, liked him very much, and became engaged to him. Now I have my doubts. I still love my former sweetheart, and am reasonably sure I love my fiancé, but my feelings for him lacks the fire I had for my first love. Please help me in my uncertainty. DOLORES

Dear Dolores: The surest way to make a mess of your life is to marry a man you don't love. It's not fair to you; it's not fair to your husband. No man wants a wife who is always dreaming of another man.

However, let's be a little realistic. Aren't you romanticizing the first love too much? Every girl goes off her head a bit about her first sweetheart, but let's face the fact — hasn't he lost some of his allure as another woman's husband? Picture him washing dishes, changing the baby, shopping at the local supermarket. Isn't it quite

but at the same time it has never brought by any action of its own to impose integration on the residents of the district.

After the appellate court ruling, Gov. Orval Faubus suggested that the school board "go back to court and appeal the ruling they got." Faubus apparently meant the order by U.S. District Judge Ronald N. Davies of Fargo, N.D., for the board to proceed with immediate integration of nine Negro students at Little Rock Central High School when the fall term opened.

a different picture from the charming boy who escorted you to your first prom, plucked on your first orchid corsage, whispered sweet nothings on a June night beneath the moon. Why is it the moon shines on every June night? No man will ever quite take his place, but isn't it about time you placed him far in the background? Quit thinking and dreaming of him, and you'll find your love-life is far from over.

Dear Dorothy Dix: I've just started to go steady with a nice boy. He has met my mother, but not my father. He's never been up to my house. My problem is, what shall I do to entertain him when he comes up. FAY C.

Dear Fay: All teenagers like to hear records. Get some new ones, see that the record player is in working order, bake a batch of cookies, and have cakes on ice. Another workable idea is to have a jigsaw puzzle, set up and started — just started. Scarcely anyone can resist an unfinished puzzle, so you can work on that for awhile. Your parents will help get the conversational ball rolling, and I'm sure the evening will be a success.

Dear Dorothy Dix: My boy friend and I love each other and he tells me he wants to marry me. When I tell anybody about us, he laughs and says we're too young to get married (we're each 19). When we're alone, he's all for it.

ALYCE  
Dear Alyce: You are being a bit premature in practically announcing your engagement before the official proposal. After this, keep your matrimonial plans to yourself until you get the boy's O.K. to make it public. At 19, he is a bit young for family responsibilities.

**CONTRAST IN CONCENTRATION** Soviet doctors, Zina Dorofeeva, left, and Nina Zhulanova present a contrast in concentration as they listen attentively during a discussion at the University of Minnesota in Minneapolis. The two women are visiting various universities and hospitals during a tour of the United States.

**ONE LINK IS MISSING**—Looming impressively against the sky, the giant steelwork of the Catumei Bridge, which will link Chicago with the Indiana Toll Road, provides a picturesque sight. The raising of the center span will provide the final link in the skyway.

**LAMCOATS**—On western sheep ranches from California to as far east as Wisconsin, where losses of new-born lambs normally run up to 40 per cent, plastic coats have helped reduce death rates. Called Lamcoats, and made of vinyl plastic, they serve to keep the lambs warm and dry, and hold in body heat. The snug-fitting coat is slipped over the head of the new-born lamb, and the forelegs are placed in front of the elastic bellyband that holds the coat in place. The coat can be shed if caught on brush by means of break-away seams. The special seams also enable the lamb to shed the coat in about two weeks or when it reaches a weight of 18 to 20 pounds.

**ALL IN THE FAMILY**—Most popular family on TV belongs to Danny Thomas, star of his own comedy series. Danny's TV family, above, includes his wife Kathy, left, played by Marjorie Lord; Rusty, played by Rusty Hamer; Terry, right, portrayed by Sherry Jackson and Linda (Angela Cartwright), newest and youngest member of the family.

## 19 · HELP WANTED · 58

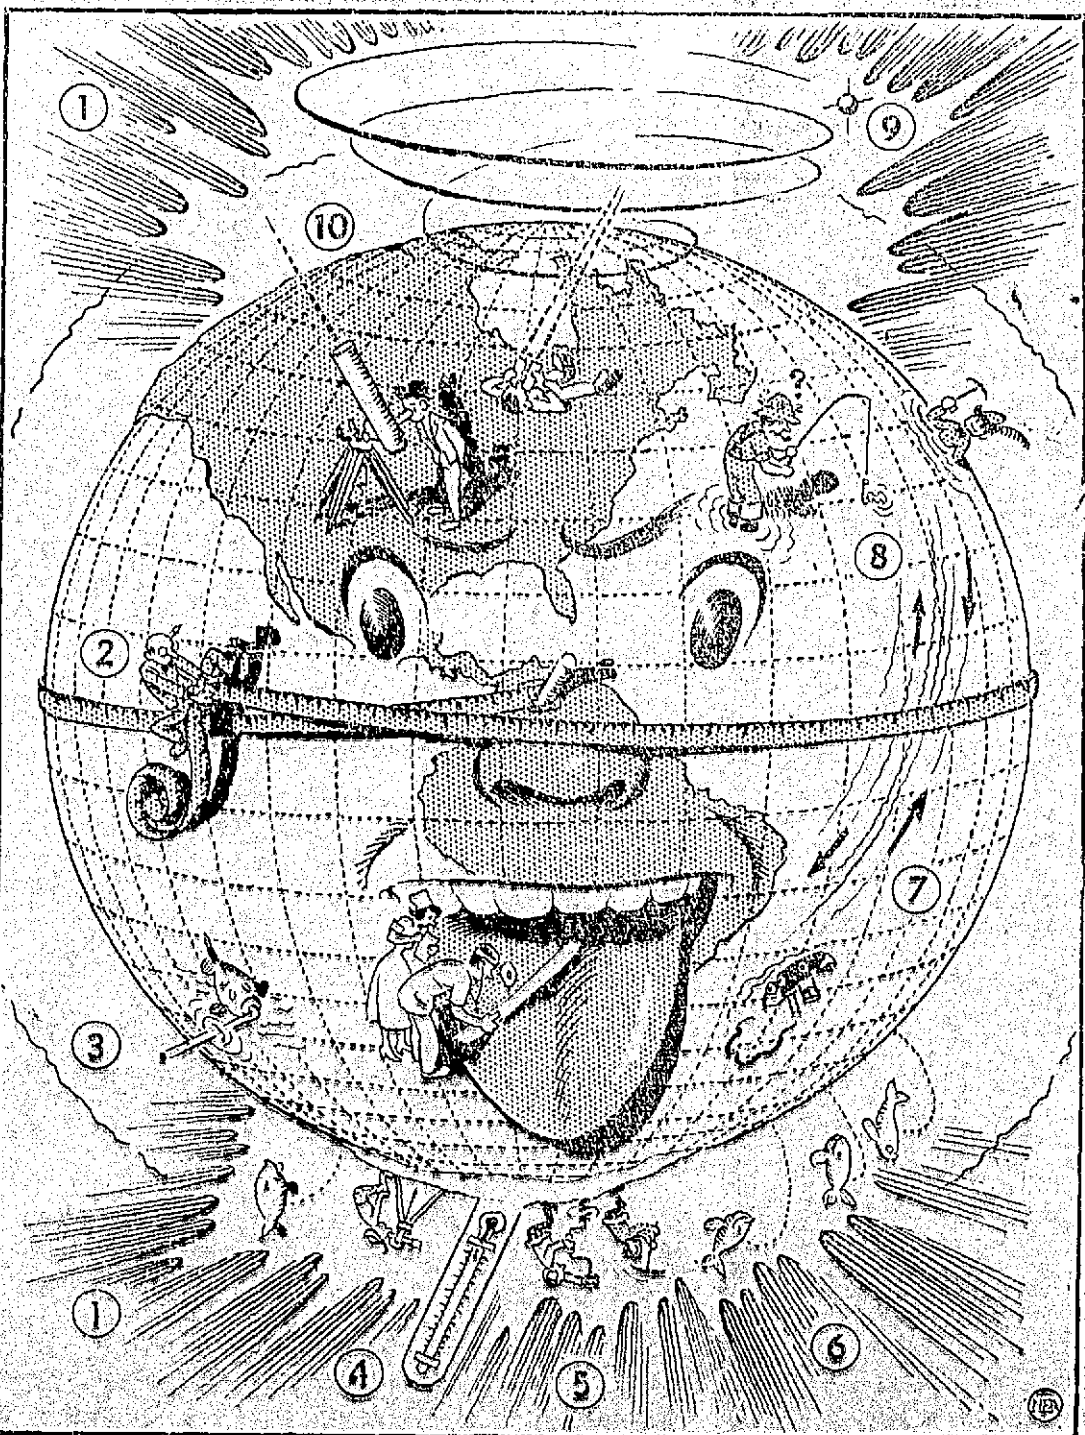

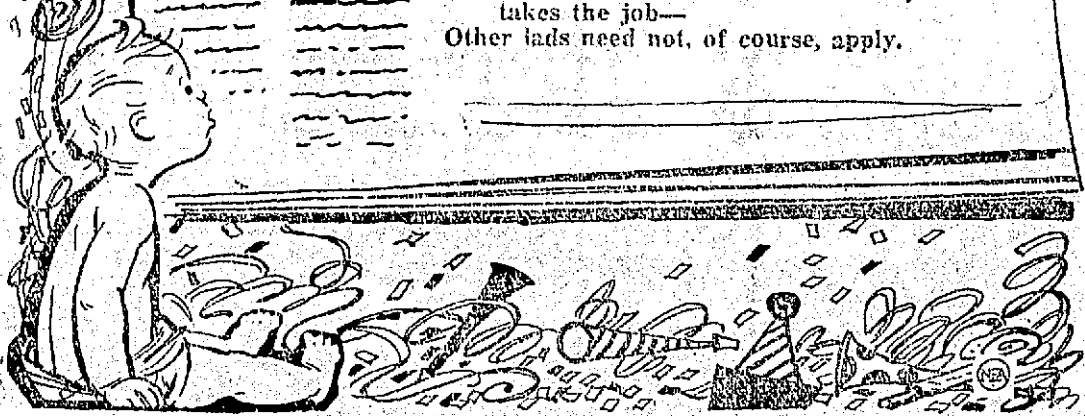

### BOY WANTED

**LITTLE** feller wanted with a knack for mending things—  
Must be quite a linker by trade.  
A pile of broken promises is waiting to be fixed.  
(Awful mess the old employe made).

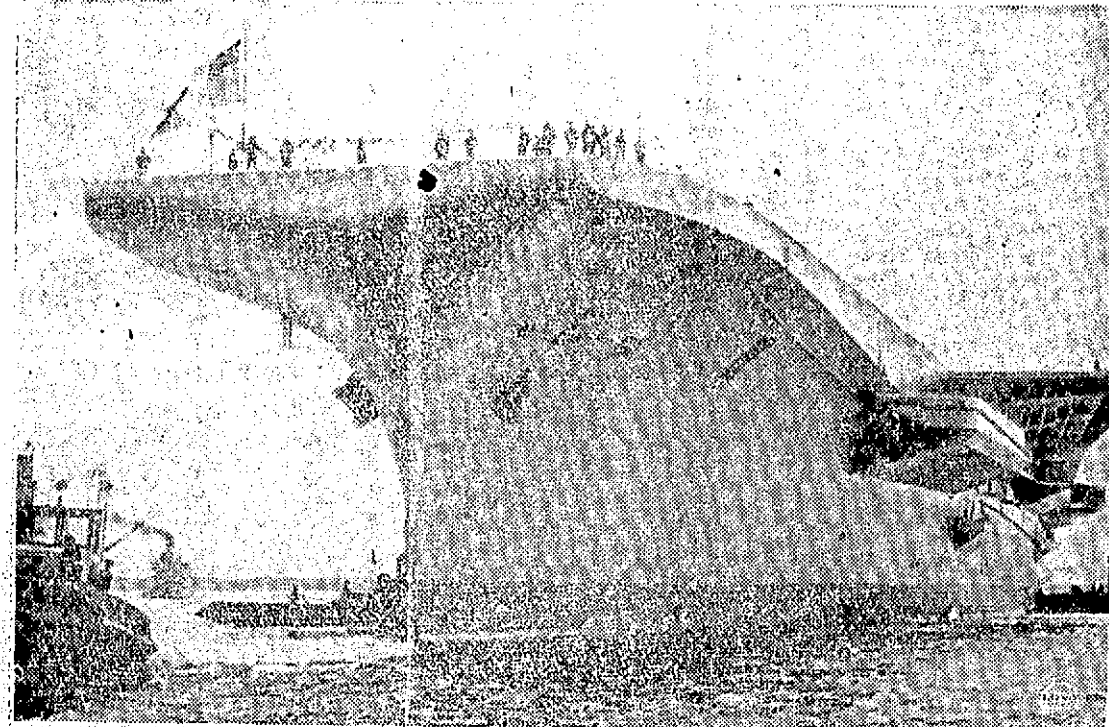

**MUST** be good with children—millions more are due—  
World needs tidying up ere they arrive.  
Needs a knack for quelling fights—some are pretty fierce—  
(Last man was lucky just to stay alive.)

**HOURS**—now 'til '59—no time off for lunch.  
History will weigh his worth someday.  
Must have working knowledge of foibles of mankind.  
Lots of faith and prime ability to pray.

**WHOLE** wide world is waiting to see what he can do.  
He'll need courage in a great supply.  
All these qualities are "musts" for boy who takes the job—  
Other lads need not, of course, apply.

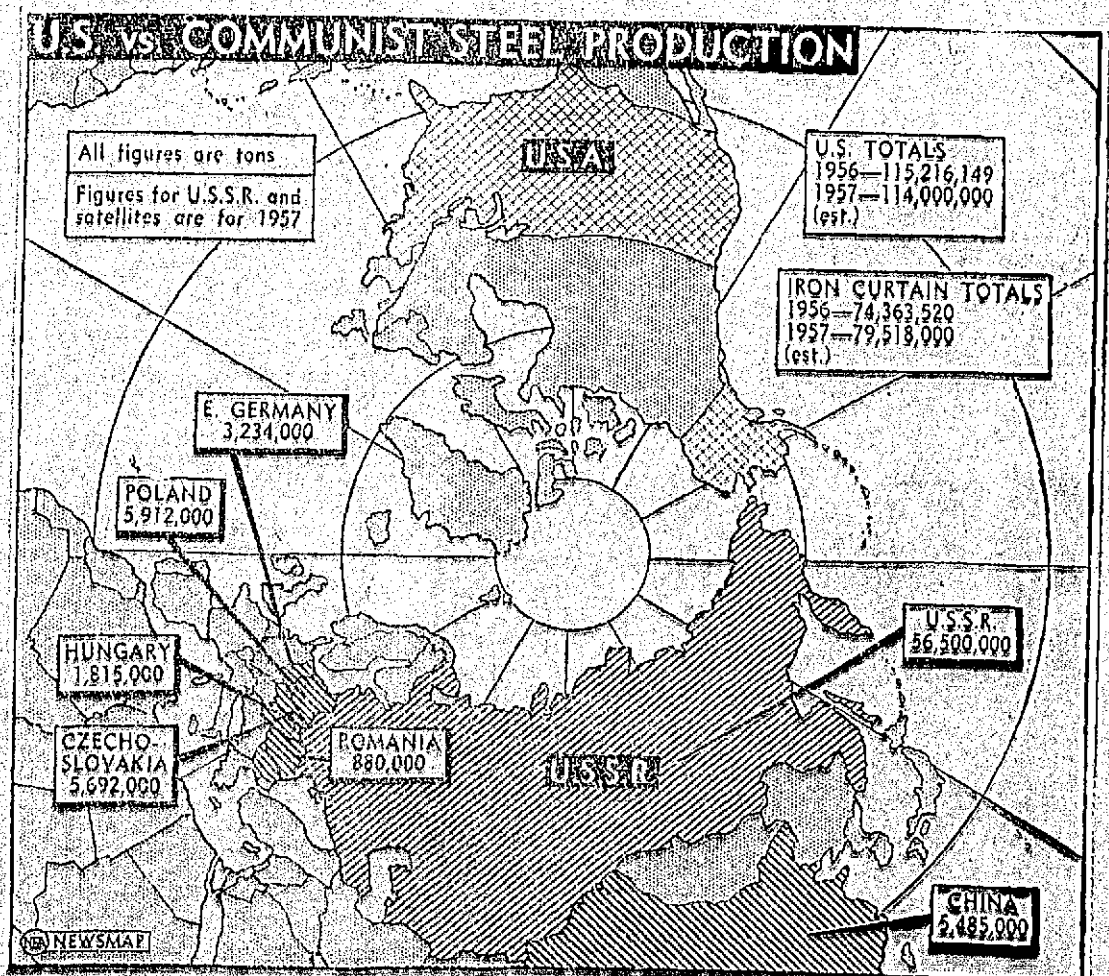

**CHECKING UP ON THE OLD BOY**—There are 12 months to go in the International Geophysical Year—it extends until Dec. 31, 1958. But already considerable has been learned about the earth and its surroundings, which is the aim. Numbers above indicate discoveries: 1. Northern and Southern lights flash simultaneously caused by radiations from the sun. 2. The magnetic equator has been charted. It runs sometimes north and sometimes south of the geographic equator. 3. Fish are having their problems since the deep and surface waters of the oceans aren't changing places as rapidly as they used to. 4. World's record low temperature, 109.1 degrees below at the South Pole. 5. Weather of past ages can be checked by ice borings. They are read like tree rings. 6. Antarctic ice 10,000 feet thick recorded. 7. Flowing in the opposite direction, there is an ocean current 9,000 feet below the Gulf Stream. 8. A quarter-inch-long worm was fished from 10,200 feet below sea level without its exploding from the pressure change. 9. Much can be learned of the earth's surface from the satellites but Sputnik's secrecy and confusion have so far concealed the value of this phase of the effort. 10. A mountain ridge 5,000 feet high has been located on the floor of the Arctic Ocean.

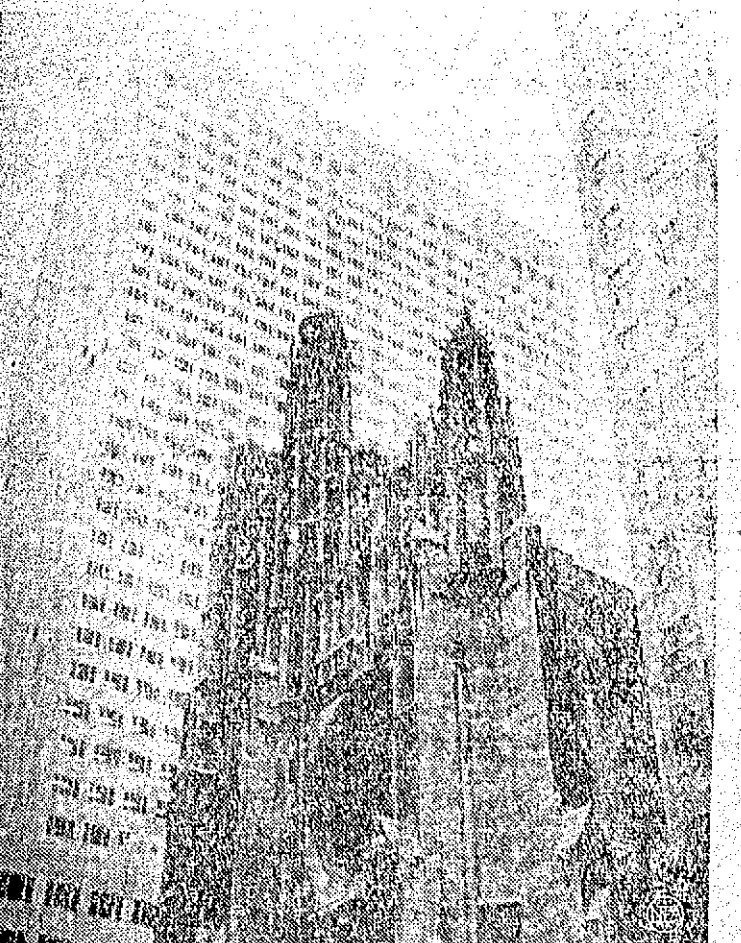

**THE PRIDE OF FRANCE**—The newest French aircraft carrier, Clemenceau, is pictured as it leaves drydock at Brest. Largest French naval vessel yet constructed, the carrier weighs 22,000 tons, will carry 60 planes, and is specially built to withstand nuclear explosions.

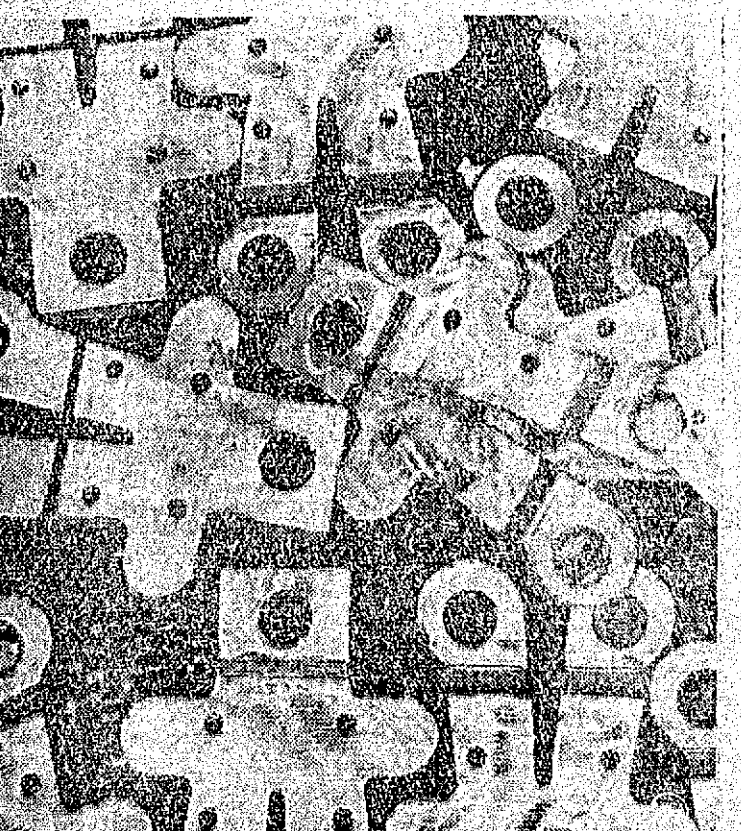

**HEADLINES TO COME**—It has been a long time since the 1934-1940 years, when child actress Shirley Temple was the most publicized youngster in the world and was 24-hour-a-day news. But now she'll make some more headlines as Young Matron Shirley Temple Black, returning to the entertainment world with her own TV show. Here she's shown with her husband, Charles Black and the children, in their Atherton, Calif., home. Youngsters are ten-year-old Susan, left, by her previous marriage to actor John Agar; Lori, three and a half, and Charles Jr., five and a half.

**THE NARROWING GAP**—Steel is the backbone of modern nations. Although, as Newsmap shows, U.S. steel production exceeds the combined totals of the Iron Curtain countries, it is the accelerated rate of Communist production since the end of World War II that has economists concerned. In the past seven years, Russian steel output alone has doubled, compared with a 20 per cent increase in this country. Most Russian production is played back into heavy industry. American economists warn that if Soviet expansion continues at its present rate, steel output in the U.S.S.R. will be close to 90 million tons a year by 1972. Communist Party Secretary Nikita Khrushchev has set a goal of 100,120 million tons by that year.

**CHURCH DOWN BELOW**—A New York City landmark for many years at Fifth Ave. and 53rd St., St. Thomas Church seems to be feeling the pinch of the city's new building boom. It is sandwiched between two modern structures, the Tishman Building, left, and Canada House.

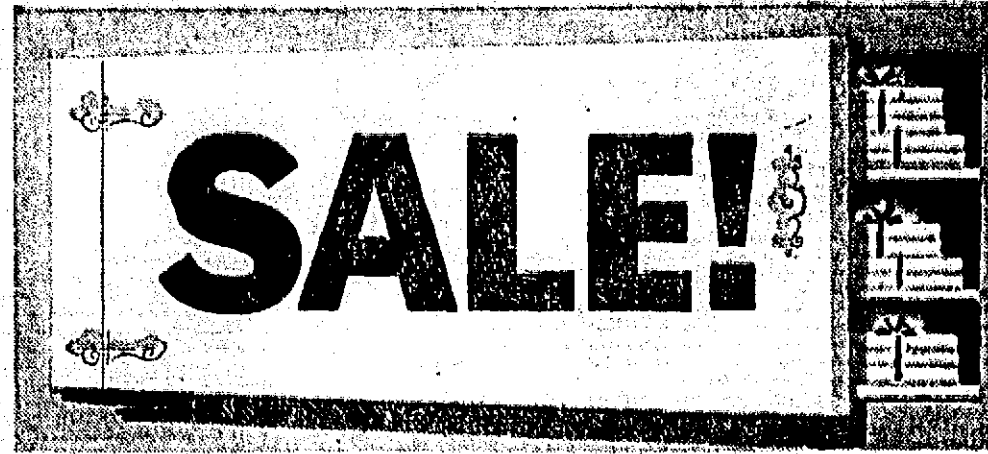

**TOUGH COOKIES**—Resembling the "gingerbread men" that traditionally help mark the Christmas holidays, these "cookies" are made of non-magnetic, and non-edible, stainless steel. They will be bolted to the stationary core of huge electric generators to provide support and rigidity at the Westinghouse plant in East Pittsburgh, Pa. Properly termed "core supports," they're called "the Dutchmen" by the employees.
